

Rock Your Data

***Delivering cloud analytics solutions
that rock your data!***

About Us

Rock Your Data is a consulting and technology firm with focus on **secure** and **scalable cloud** analytic solutions using top-tier cloud vendors.

Our mission is to provide high-quality analytic solutions for Canadian companies and help them **drive business with informed decisions** by leveraging powerful and modern cloud capabilities.

All consultants are passionate about analytics and built solutions across the globe accumulating 10+ years of BI/DW/ETL experience.

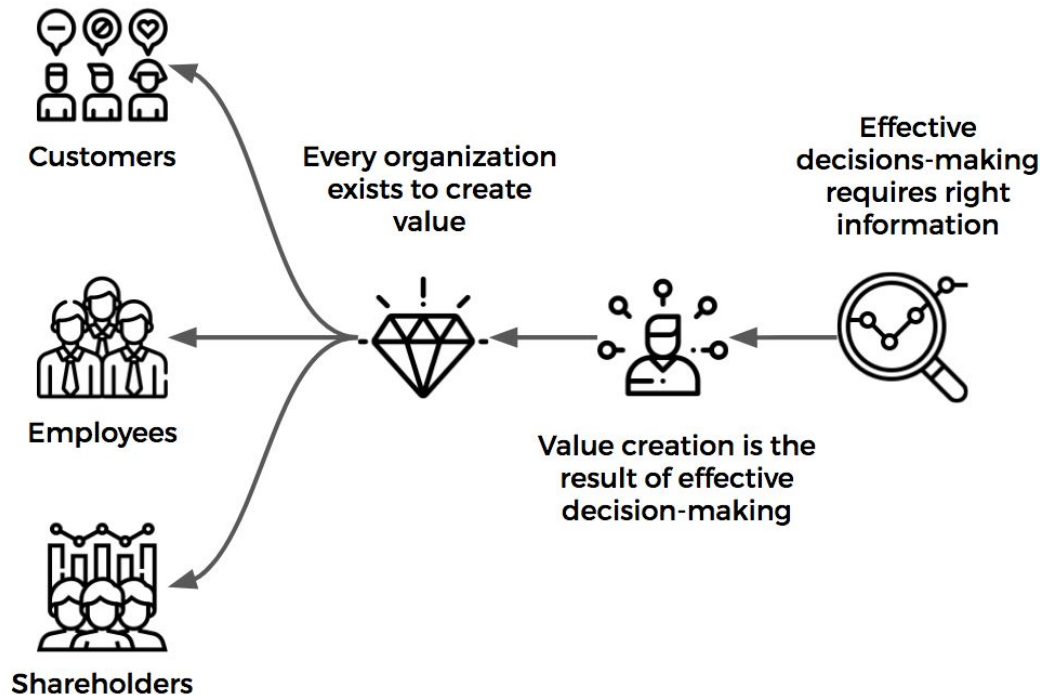

Vancouver, BC

- **Innovation**
- **Passion for Analytics**
- **Fast Time to Value**
- **Customer Obsession**

What we do?

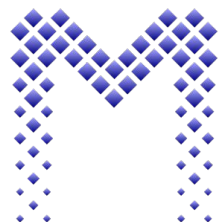

We help organizations to make **distinctive, lasting, and substantial improvements** in their performance **via data and technology**.

Cloud Providers

At Rock Your Data we put customer requirements first. As a result, we are designing cloud analytics solution using:

- Amazon Web Services
- Azure Cloud
- Google Cloud Platform

Google Cloud Platform

Certified Partnership

Matillion ETL is powerful cloud ELT platform that can handle any size project and dramatically increase speed of development.

Tableau is a Self-Service BI platform and leader in Data Visualization and Exploration.

Snowflake is a new generation Data Warehouse Platform and it is true Data Warehouse as a Service (DaaS).

Looker is a native Cloud Enterprise BI platform.
